In re: RRG/Clayton Chemical Site
(1 Mobile Avenue, Sauget, Illinois)

Dear Mr. Turner:

This letter is in response to the undated General Notice of Potential Liability letter which my company received last week from Mr. Richard Karl, Chief of the Emergency Response Branch of the EPA, in connection with the above captioned matter.

We do not believe that our company is a potentially responsible party (PRP) at the subject Site. We have generated a small amount of waste sent to this Site and know of other companies that have generated large and significant quantities that are not on your list.

Public information from the states of Missouri and Illinois show at least fifty companies that have generated substantially more waste than we did at the Site. These large generators should be the targets of your efforts to identify PRP's.

Please direct further correspondence concerning this matter to our company as follows:

Name: Comet Dry Cleaners & Laundry
Address: 3828 So. Lingbergh Blvd.
St. Louis, Mo.
Phone Number: 63127

Very truly yours,

Diana L. Bartlett Mgr.
